Activity Feed View

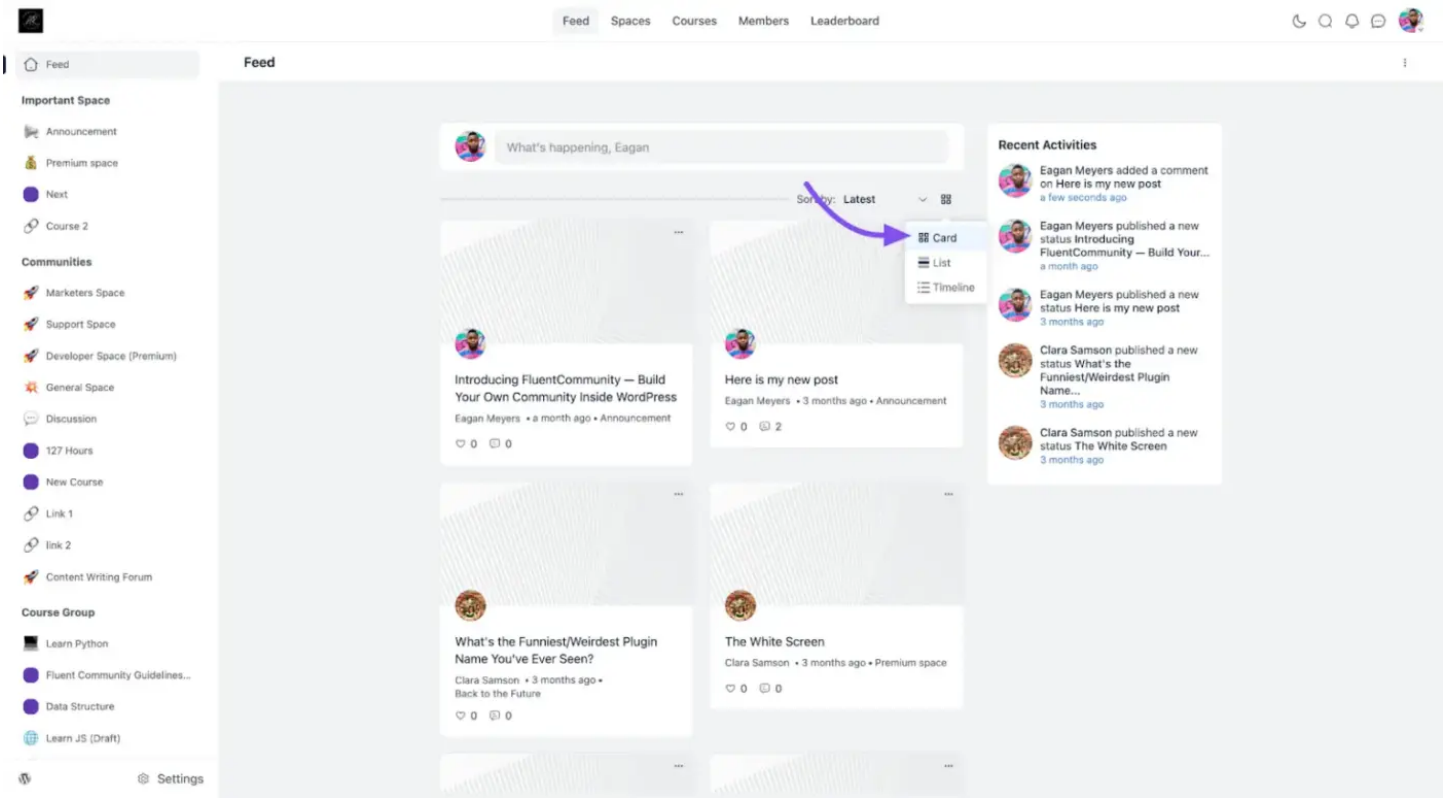

Space Management · https://fluentcommunity.co/docs/activity-feed-view/

The **Activity Feed** in FluentCommunity keeps members updated on recent posts, comments, and other activities. It offers three view modes for easy browsing: **Card View, List View,** and **Timeline View**. Here’s a quick guide to both:

Card View

- **Layout:** A structured grid layout displaying activities as individual cards.
- **Features:** Presents posts in a grid format, allowing for a quick overview of multiple updates.
- **Ideal For:** Members who prefer a visual grid to scan content at a glance.

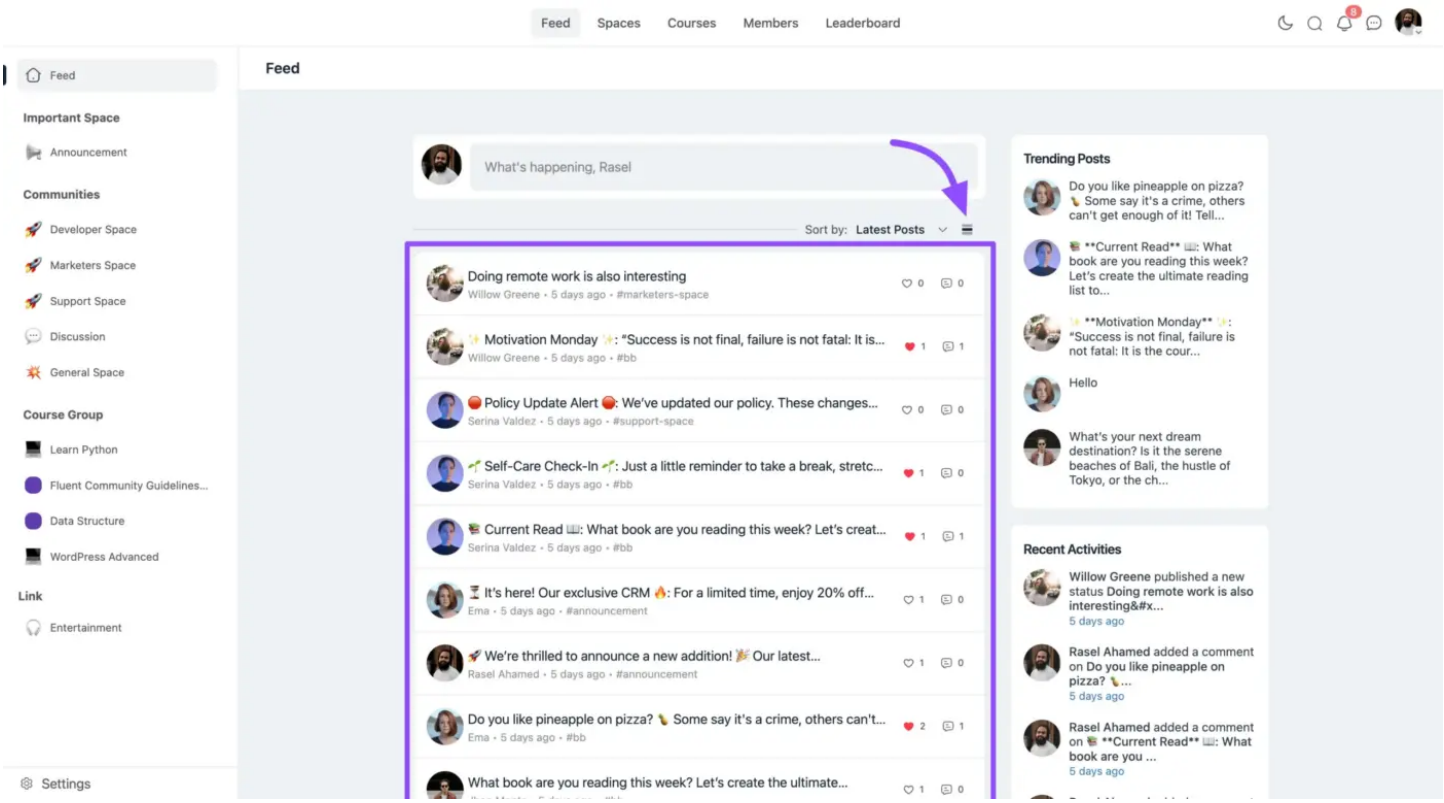

How to Access: Click on the **View icon** button at the top of the Activity Feed to switch the view to **Card View**. You will also get this view option in the **Space Settings** Section.

List View

- **Layout**: A simple, compact list of activities in chronological order.
- **Features**: Quick interactions for liking, commenting, and sharing directly from the feed.
- **Ideal For**: Members who prefer a straightforward, streamlined layout.

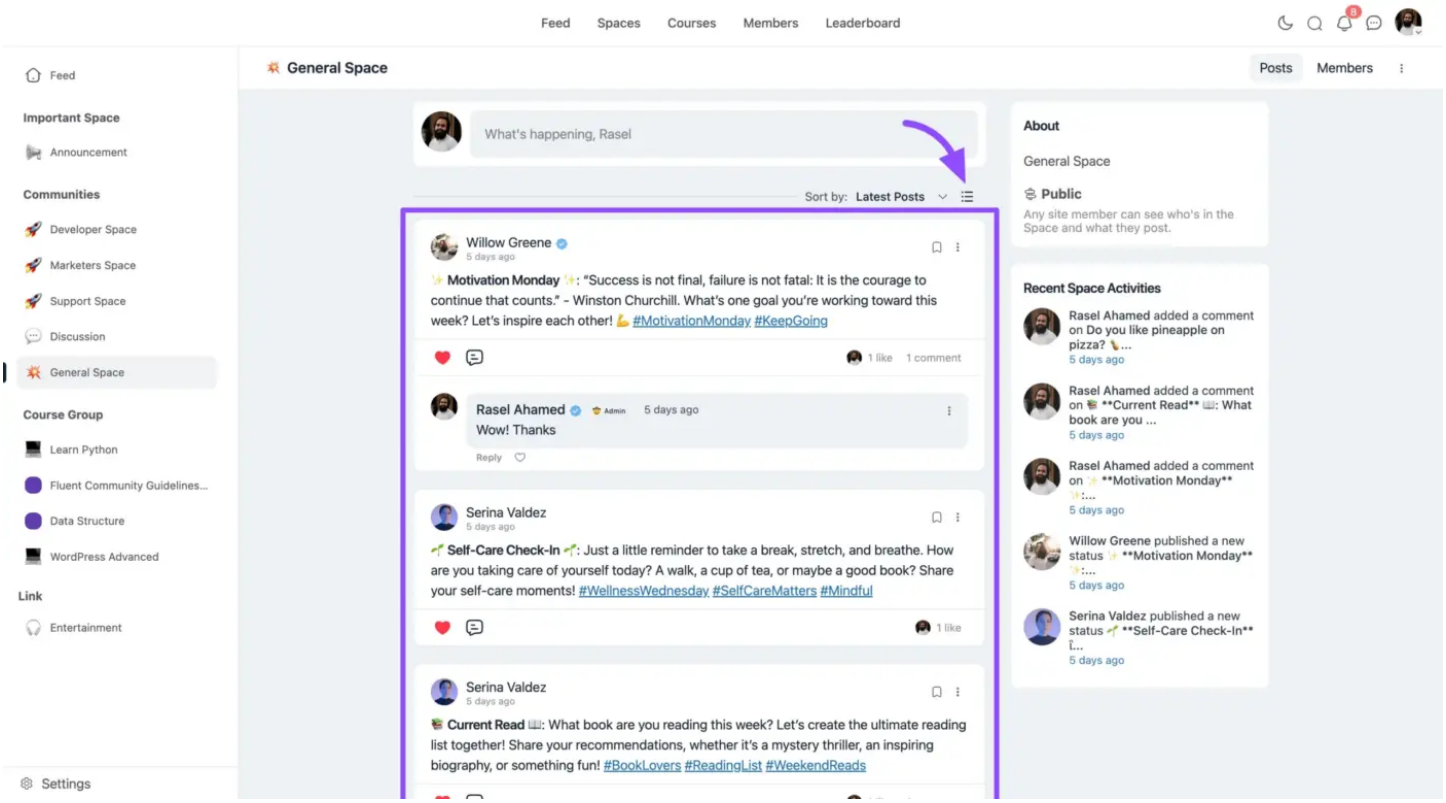

How to Access: Click on the **View icon** button at the top of the Activity Feed to switch the view to **List View**.

Timeline View

- **Layout**: A visually organized timeline by date, highlighting posts and activities.
- **Features**: Expands previews for easier browsing and viewing of media.
- **Ideal For**: Members who enjoy a visual timeline and want to browse activities by date.

How to Access: Click on the **View icon** button at the top of the Activity Feed to switch the view to **Timeline View**.

These views let you choose the style that best fits your needs, making it easier to keep up with your space's activities.
